FILE HEADING.

Proposal to Shift the toll gate at Kellegowdanahally on the Mysore-Maunto dry road.

From

The President District Board, Mysore.

No. 826 Dated 6.6.1909 Received 13.6.06.

Diary No. 8919	Enclos.	Spare Copies	Serial No. 1

BRIEF ABSTRACT OF LETTER.

Requests sanction to Shift the toll gate from Kollegowdanahally to Kakankote with a Sub Station at Antersante as the present situation is too much in the interior and is irksome to the local agriculturists & others.

NOTES AND ORDERS

It is contended that it was never contemplated to levy tolls in the interior of the provinces Whatever the original object in the Which the tolls were established may have been, there seems no reason Why any distinction between outside

NOTES—First sheet

G.P.B.—30,000—3-4-07

Serial No.

and inside traffic should now be made. There is no order prohibiting the levy of tolls in the interior

2. Sufficient protection is afforded to agriculturists & others in the vicinity of toll gates since they are allowed the option of Compounding in lieu of paying tolls frequently. (Please see G.O.No. 1369-76 dated 10th August 1907. If the fee for Compounding is sufficiently low no real hardship is imposed by the existence of toll gates in the interior

Please see pages 4—6 of the notes to KB 264-04 & 1-6 B July 1905. X

3. The toll gate on the road in question has been shifted from place to place for one reason or other and finally located at Kallegowdanahally (Vide 379-82/KB 2640 dated 10th July 1905.)

4. Moreover the present proposal (to open a sub-station) was once before vetoed by Government in G.O.No. 508/47 45-96 dated 11.1.1702 ~~with letter~~ ~~herewith are correspondence~~ & Tracings.

5. Submitted for order

K.P.Nj 22.6.09.

6. The proposal made by the Dist. Board and supported by the President is that the present toll-gate at Kallegowdanahally be removed

NOTE—Contn. sheet.

GPB—50,000—13-5-08

Serial No.

to Kakanakote and that to catch the traffic at using the Kurukal road, a sub station be located at Antarsante

7. The toll-gate was formerly located at mastegudr about two miles north of Kakanakote In 1897, the Deputy Comr Bednore represented that Mastegudr (Masinguder) was in the midst of State Forest and was very unhealthy and besides dangerous to live in on account of elephants etc and suggested the shifting of the toll gate to Kharapura. It was further represented that by doing so, the contractor could exercise better supervision over cards and prevent them from evading payment of ~~toll~~ toll by taking one of the branch roads between Khara and Kakanakote. This proposal was sanctioned in 1898 and the toll gate shifted to Kharapura

8. In 1902, when the result of collecting tolls at Kharapura

NOTE—Contn. sheet.

GPB—50,000—13-5-08

Serial No.

during 1902-03 was put up for sale by public auction, the bid offered was very low. This was said to be due to carts evading payment of toll by passing through one of the many jungle cart tracks. To prevent evasion of payment as above, a sub station was proposed to be opened at Antersante but Govt considered that the proposal to have two toll-gates on the same road at a short distance from each other was most objectionable and might lead to abuses besides unnecessarily harassing traffic and did not therefore approve of it. The Deputy Comr President was however requested to consider the question of shifting the toll gate to Antarsante as that would improve matters. (Vide G. O dated 11.7.02).

4 During the first three months in 1902-03, the tolls

GPB—50.000—13-5-08

G. R. S. 12]
General and Revenue Secretariat.

AB File No. 2024 of 1908-09

Serial No.	

were collected annually and the right to collect tolls for the remaining nine months was sold by public auction for Rs 800 - The President was then of opinion that it was not necessary to remove the toll-gate from Kharapura

10. When the right for the next year 1903-04 was put up for sale, the bid again was low. The President reported that he had confirmed the sale and observed that the low bid was due to the situation of the toll gate. Govt approved of his action and requested him again to consider the question of the removal of the toll-gate to Antarsante. (Vide G.O dated 1.6.04)

11. With reference to the above order, the Dy Comm^r President has now written on his letter dated 26th Jan^y 1905, that the toll-gate be removed to its present place Hollegowdanahalli

NOTE—Contn. sheet.

P

After careful consideration, this was sanctioned in G.O. dated 10th July 1908. As there was much discussion at the time as regards protecting the agricultural industry as to expose from any additional burden and exempting agriculturists in the vicinity of the toll gate from payment of tolls, the President was requested to submit proposals for exempting agriculturists by the issue of free licenses or otherwise. The President accordingly submitted certain proposals but they were not considered suitable (Vide G.O. dated 10th Aug 1907).

13 It will appear from the summary of the case given above that the present proposal is retrograde. Kakanakote was not considered to be a proper place for the toll-gate and it was, therefore removed from there. A sub station at Anthargaute

Note—Contn. sheet.

GPB—50.000—13-5-08

was considered not necessary.
It is said that the present
situation of the toll-gate is
causing much hardship to local
people as it is par on the exterior
2.5 miles from the frontier.
Antarsante is however only
about four miles from Koller
gon and actually towards the
frontier. To all intents and
purposes, there does not seem
to be much difference between
a station and a sub station
and it seems extremely doubtful
whether the arrangement
proposed will afford much
relief to local people. Mere
agitation is not likely to stop
for the sub station at Antar-
sante well, still be about
20 miles from the frontier.
~~and~~ while, on the other hand
contractors may begin to
complain again that the trans-
fer has affected them preju-
dically and facilitated the
evasion of payment of toll

GPB—50,000—13-5-08

Serial No. 14

In these circumstances, the proposal does not seem fit to be sanctioned. All things considered, the present situation seems to be the best and no change desirable. The Division may be informed accordingly.

18/6/09 28.6.09. KWS

15

As Kakankota is situated in the midst of State forest the file may be sent to the Conservator of Forests for favour of his opinion as to the proposal to shift the toll gate to Kakankota & open a branch toll gate at Antarsante. Mr Smith's intimate knowledge of this tract should render his opinion valuable.

5331	17. The location of the toll gate at Kottaikkal would be welcomed by the Police and Forest depts. as it would bring a few more persons to visit the place but the Curators would not at all like the idea, the place being so wild and unhealthy. Besides the carts using the Mankal-Kutiarcode road would escape payment of toll. This road is now being put in the improved order by the Forest dept. and is likely to be largely used by the Malabar Forest Deptt. and the public in future.
	Taking all the circumstances into consideration I think Kutiarcode would be the most suitable place for the purpose. It is situated on the outskirts of the forests and of a few of our villages will be affected by the Toll gate being located there.

at Kakankōte with a sub station at Sunkadakatte and that the proposed location of the toll gates ~~would~~ will meet all requirements

2) The proposals amount to (i) the transfer of toll gate from Kollegowdana halli to Kakankote in the midst of jungle infested with elephants and (ii) opening of a new additional toll gate at Sunkadakatte which is situated on the forest road. The toll gate at Sunkadakatte will be an additional one on a separate road but not a ~~Sub-station~~ Sub-station of Kakankote on the Mysore-Manandoddy road. If the proposals are to be sanctioned it may ~~also~~ be necessary to inform the Residency of the intention to open a toll gate at Sunkadakatte as it seems to be very near the frontier ~~although~~. It is not known whether a British toll gate exists within a short distance of Sunkadakatte or not. It will be seen from the Asst Comrs report that the toll gate was shifted from the appointed place by the Contractor this seems to be irregular.

Regarding the Shifting of the toll-gate on the boundary Road from Kanakapura to Kollegaldoddy thalli etc in Heggada devanakote Taluk Nanjanagud District

M.G.B.P.,—9-2-09,—400.

No.
Enclosure No.

OFFICE OF THE PRESIDENT OF DISTRICT AND
MUNICIPAL BOARDS, MYSORE DISTRICT.
Dated, Mysore 9th June 1909.

From

Sir. Kantaraj Urs ... Esq., B.A.

President of District and
Municipal Boards, Mysore District.

To

Rao Bahadur Chandrasekhara Aiyar Esq., B.A. B.L.

Secretary to Government,
General and Revenue Departments.

Sir,

With reference to Government order No. 379-82 / B 264-04 of the 10th July 1905, ordering the shifting of the toll-gate on the Periyapatna Hunsur Kollegal Roads from Kanakapura to Kollegaldoddahalli, I have the honour to state that this question formed the subject of a representation made by one Mr. Syed Kachadin Sab during the sittings of Representative Assembly in 1908, on the ground that the present position is too much within the interior. At the preliminary meeting held in this District, the Sub Division officer of Periyapatna was asked to report on this subject. In his letter No. 254 of the 14th May 1909 (copy enclosed) the Sub Division officer recommends the shifting of the toll-gate to Gudaramanahalli ridge, which brings this toll-gate still further into the interior. I placed the subject for discussion before the District Board at its meeting held on the 29th May 1909. The Board recommends

P. T.

the location of the toll-gate at Kakankote with a sub-station at Anbisankê to catch the traffic using the Perumbal road which leads to Coorg. The two stations will be commanded as one, and the traffic rolled on at one will be allowed to pass on at the other on production of the payment receipt.

2. The toll-gate on the road in question is being shifted from place to place since its establishment in 1894. The present position being the fourth one: some inconvenience or other is always pleaded by the public. The proposed position, though suggested for the same purpose is considered unobjectionable, both from the financial point of view and the convenience of the public, provided that a Sub-station is opened to catch a branch road. The proposal to open a Sub-station was vetoed by Government (Vide G.O. No 508 dt 45-96 dt 11-7-1902). But considering the amount of hardship which the people are now experiencing by the situation

of toll-gate at Kollegowdenhallial a distance of 25 miles from the frontier, I submit the recommendation of the District Board for the favorable consideration of Government. However, the levy of tolls was at first intended only for traffic coming into our Province and plying on our roads without paying anything for their wear and tear. But as the situations of the toll-gates were altered from time to time, all the traffic whether of our Province or from outside passing through the toll-gates is now subjected to the payment of tolls. Under this circumstance, the farther the toll-gate is situated, the less irksome it will be.

I have the honor to be,
Sir,
Your most obedient servant
S. Krishna Rao
for President District Board
Coimbatore District
D.C.

From
The Assistant Commissioner
Mysore Sub-Division

To
The Deputy Commissioner
Mysore District

No: 259 dated 14th May 1911.

Sir,

With reference to your yaroo no: 492 dated 17.3.09 regarding the shifting of the toll-gate from Kollegood and hall to some more suitable place, I have the honor to state that it was with the object of taxing carts from British India which do not pay cartlax the Mysore Government that a toll-gate was established at Savali. The existance of a British tollgate on the frontier necessitated the removal of our toll gate to Kakankote more than five miles into the interior. Since then the innumerable forest tracks have been the theme of endless complaints from toll gate Contractors - that many carts evade payment by making short detours and joining the road on the other side of the toll-gate. To put a stop to this practice the toll-gate was removed from Kakankote to Karapur and from Karapur to Kollegood annually, apparently without any result.

It is now proposed to shift the toll gate further into the interior without exempting carts of any description. If an increase in the toll gate Revenue alone is contemplated this would be a step in the right direction as Begur, Saragur and Heggadadevankote carts will have to pay the toll as well. But I beg to submit that it was not with this end in view that a toll gate was first established at Bavali. When the toll gate was transfered to Kollegaud a taluk Government requested the Dy Commissioner to submit proposals for exempting the agriculturists carts from the payment of the tolls by issue of free licenses or otherwise. Apparently no proposals have been submitted so far as well carts pay the tolls now.

I beg to submit that this additional burden on the agricultural industry is not justifiable and must be removed with all possible despatch. To effect this I propose that the carts which pay Mohatarfa should bear the name of the village to which they belong and a number on the axle and should be allowed to pass the toll-gate without payment of the tolls. I propose that the number should be

should be put on the cart as it would not be easily defaced, not being exposed to sun and rain. In my humble opinion the agriculturists carts should not be given the benefit of this exemption as they are exempted from the Nirkattara on the ground that the carts are mainly used for agricultural purposes. I do not see why they should be allowed to ply for hire without paying either the Nirkattara or the Toll. I found at the Jamabandi of Hellad a dewan state that many carts which ~~ply~~ claim exemption from Cart-tax ostensibly on the ground of being agriculturists carts almost exclusively ply for hire. If my proposal is approved the carts which evade payment in this way will be taxed if they ply for hire. It will be seen from Mr Saundersons ..... p. 1. that he was also of opinion that the transfer of the toll-gate into the city will be attended with more trouble to the ryots. He approved of but did not recommend the transfer of the toll gate to ~~Yaraballi~~. If my proposal is given effect to the toll-gate may safely shifted

into the interior to Gundvanahalli without the possibility of a cart being taxed twice. I select Gundvanahalli as it would not be always feasible for the carts to make detours for the purpose of evading the tolls, the rivers coming in their way. This transfer will prevent the loss to Government by the evasion of toll or Cart-tax. The entire record is here with enclosed for reference.

I have the honor to be
Sir
Your most obedient Servant

Submits further information regarding the proposal to shift the toll-gate from Kollegowdanahalli to Kallankote in the Heggadevankote taluk

Heggadevankote supports the above view of the Sub Division Officer. During my tours of inspection, I have also made enquiries and have been impressed that the proposed location of toll-gates would meet all requirements. I request therefore that very early orders on the subject may be kindly obtained, as the right of collecting tolls at the toll-gate is notified to take place on the 11th instant. The file of vernacular papers accompanies for reference and obliging return when done with

and another toll gate opened at Sinkadkatte. This arrangement will effectuall put a stop to the evasion of the toll gate fees as there are bracecally no villages on the other side of Kakankote and the carts will have to join the Sinkadkatte Kyamara forest road or cross the river. The latter is not feasible. If the carts join the Kyamara road they will have to pay cart tax at Sinkadkatte. The payment of the tax can only be enforced by floating timber down the Kapani river on the otherside of Kakankot. I do not see any objection to this as the road will not have been used for the carriage of the timber and the carts that will fetch the timber near Hampapeer always pay mohalarfa to the Government And the toll gates are established to tax only such of the carts as do not pay the mohalarfa tax. If carts are allowed to pass the Kakankot forest they can take one of the unfrequented

paths in the District Forest and avoid going to Antersante at all. I am therefore of opinion that nothing will be gained by shifting the toll gate to Antersante. All that I can say in favour of Antersante is that it is not so malarial as Kollegowdanhalli or Kakankote. The agriculturists and others using the road would be no better by the change as the distance between the two places is only three miles.

General ... Department.

Sir,

With reference to your despatch No. 10827 of the 6th June 1910. (P.B. 404-08-6) asking for certain information on the proposal to establish a toll-gate at Amidakatte on the Muruthel Amirisende road I have the honour to state that a British toll-gate was been established at the frontier village or pass at a distance of three miles from Amidakatte and that tolls are being collected

(4) annas on each laden
cart and at (2) annas on
each unladen one.

2 The toll is levied both
on the incoming and out-going
traffic.

3. The incoming and
out-going traffic on this
forest track is about (50) carts
a month. Such may bring
in an annual income of
about Rs (200) against an
expenditure of Rs (180) on ac-
count of establishment charges.

4 The road in question
is being maintained by the
Forest Department and the
District forest Officer con-
siders it reasonable and
equitable that the Department

which maintain the road should take the income of the toll-gate levied thereon.

5. The District Board in its meeting held on the 12th August 1910, considering all the aspects of the question resolved that the Forest Department do maintain the road taking the income of the toll-gate. It was at first thought that the Forest Department would not object to continue to maintain the road, allowing the District Board to take the toll-income for the maintenance of its roads

Department will be allowed to take the [illegible] the Board has no objection to it doing so. Any how the location of a toll-gate at Sunkodakatte is a necessity in the interests of both Govt. & the Forest Department and the District Fund Board

The file of papers ending with the District Forest officer's Memo No. 102 of 30th July 1910 is returned herewith as requested.

I have the honour to be
Sir
Your most obedient servant

Sir,

With reference to the correspondence ending with your letter No. 136 dated the 29th August 1910 stating that the District Board are not prepared to open a toll-gate at Sunkadakatte on the Mavinkal-Buttersante Road but they have no objection to the Forest department opening one and taking the revenue derived therefrom I am directed to forward herewith for your information an extract from para 1 of the proceedings of Government dated the 9th September 1910 on the

(last para of the note)
